Re: Starting Grids For Events With More Than Two Races

---

Effective immediately, USF2000 Regulation 8.1.E.5 is amended to include a second paragraph shown at the bottom:

The starting field for the second Race of a two-race Event shall be determined by the fastest Race lap time from the first Race, from fastest to slowest, with the fastest occupying the pole position, followed by the second fastest, third fastest, etc., down through the slowest. If no Race lap time is recorded, the order shall be set by Qualifications times first and in the discretion of the Race Director if still unresolved.

The starting field for any additional Races of a multi-race Event shall be determined by the fastest Race lap time from the preceding Race (Race Two fastest laps set grid for Race Three, etc.), from fastest to slowest, with the fastest occupying the pole position, followed by the second fastest, third fastest, etc., down through the slowest.
